

An aerial night-time photograph of Europe, showing the continent illuminated by city lights. The lights are concentrated in major urban centers and along coastlines, creating a glowing pattern against the dark landscape. The Mediterranean Sea is visible to the south, and the Atlantic Ocean to the west. The overall color palette is dominated by the deep blues of the night sky and sea, contrasted with the warm yellows and oranges of the city lights.

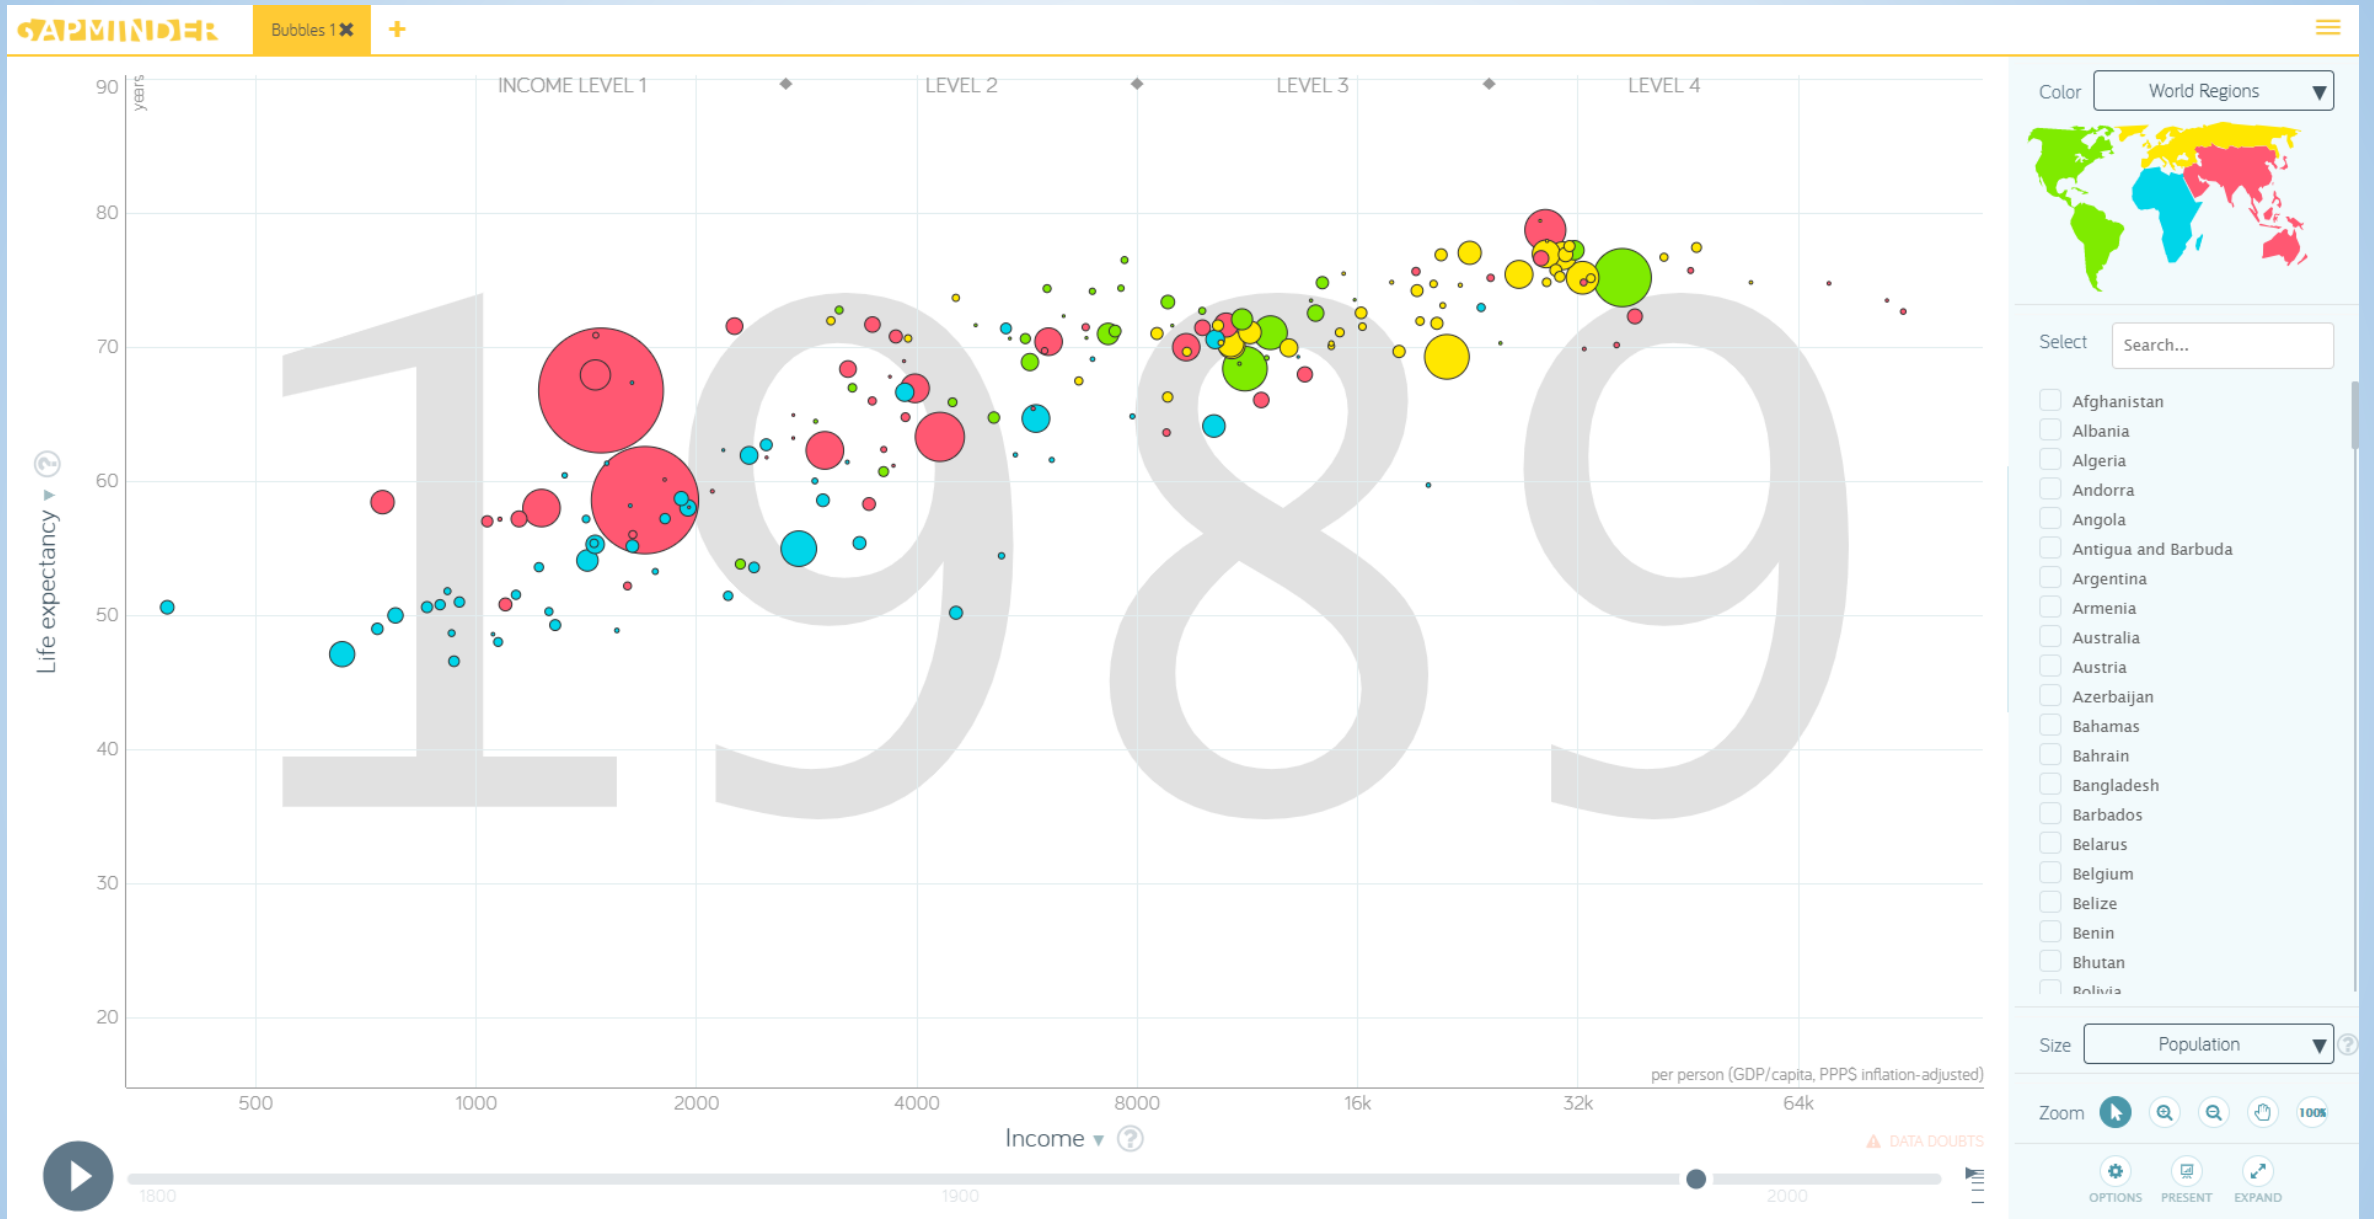

Evropa ve 21. století geografické aspekty vývoje
